VIANO — 0155

Genuine leather belts penetrating one another creates a net form at the outer side of each sofa arm. This high level of work can only be achieved by ultra fine hands which realize first class leathercraft and sewing techniques.

The color of the genuine leather belts is always matching with that of the sofa main body. That can be realized only because every KELVIN GIORMANI sofa is customized-to-order.

Solid stainless frames are built around each sofa arm and the sofa base. A perfect match with modern living room furniture setting.

Optional headrest (no. HR2) delivers extra comfort and head support.

German-engineered sliding seat mechanisms (optional) offer extra seat depth for different sitting preferences.

MOSTO 0153

MOSTO 0153

18cm tall stainless steel sofa legs create a lot of open space. It gives Model MOSTO a good balance between a rich-looking seat frames and a light & clean seat base down under.

The see-through sofa arm design extends to the back frame of Model MOSTO which synchronizes the appearance of the sofa side and back.

The up-side-down U-shape of the back frames (and arm frames) offer casual sitting utility when the sofa set is placed at the center of a living room. Many friends are welcome!

MOSTO / 0153

In Model MOSTO, tufted squares are not only found on the top of seats, they are seen 360 degree around the front, sides and the back of the seat frame.

Underneath each square, it is filled with natural feather which creates a round & soft look. Also, the luxury appearance of leather is enhanced.

Optional headrest (no. HR2) delivers extra comfort and head support.

MOSTO 0153

Optional stool (no. ST2) comes with matching designs of the sofa base frame and legs.

DESE 0156

LXRAM

4LAAM

DESE | 0156

Model DESE has adjustable mechanisms that allow the arm cushions to be fixed at various positions, enabled by the Japanese mechanism expert of KOYO. With this capability, the sofa arm can become another sofa back for different sitting angles.

The stainless legs are adding design elements to the modern clean look of Model DESE.

DESE 0156

Solid stainless steel support (standard design) at the back of every back cushion is decorative and uptrend.

Optional headrest (no. HR2) delivers extra comfort and head support.

As an alternative to the stainless steel back support, a leather-wrapped back support can be fixed at the back of every back cushion to serve the same purpose.

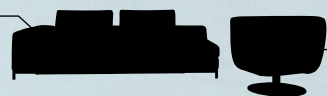

Optional coffee table (no. STG3B) comes with matching designs and a black or white painted (tempered) glass top.

DESE 0156

CXRAM

AC24

The special one-fixed-arm sofa (no. CXRAM) is a particular form of a Model DESE sofa. It has a conventional sofa arm that gives the sofa a good design proportion and space efficiency when there is an adjustable arm at the other side of the sofa,

The stainless legs are adding design elements to the modern clean-looking of Model DESE.

The minimalistic design of AC24 (with swivel chromed base) well matches clean-outlook of Model MESE.

Optional stool (no. ST2) comes with matching sofa leg designs.

FONTE II 0153

4RA

SXL

FONTE II 0158

Straight lines and strips are key elements of contemporary design. Placing heavy strips all the way around Model FONTE II enriches the modern look of the model.

Among the strips on the sofa frames of Model FONTE II, perforated effect is found alternately. The effect brings out the individuality of each strip element.

The arm and back frames connect in an exceptional way which looks like they are opened to each other. The cross-section of the arm and back frames can be seen together clearly. What a special view!

The stream-line shape of the sofa legs matches perfectly the inclined arm and back frames. Such a special shape can only be achieved with solid stainless steel.

FONTE II 0158

Optional headrest (no. HR2) delivers extra comfort and head support.

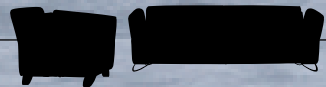

Optional stool (no. ST2) comes with matching designs of the sofa base frame and legs.

FONTE I 0157

1D

4D

FONTE I 0157

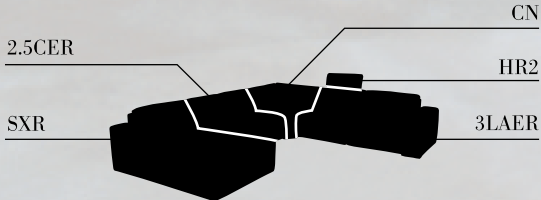

Model FONTE I is the minimalistic version of Model FONTE. It has the general outer shape of FONTE II. The ornate strips (from FONTE II) have been eliminated. FONTE I is perfect for those who prefer a cleaner look for their living rooms, and yet, appreciate the unique outer shape of Model FONTE.

LEVICE III 0138V

LEVICE III 0138V

The up-side-down U-shape solid stainless steel decorative panel at the arm front highlights the design uniqueness of Model LEVICE III.

The tufting effect, only on the seat top, is an alternative for those who are fond of detail craftsmanship on sofas.

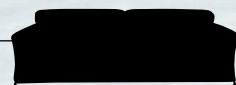

The optional recliner mechanism for each seat offers the utility of resting your legs while sitting. Unlike conventional recliners, for Model LEVICE III, after the recliner goes back to the closing position, the entire sofa group maintains the appearance of the contemporary clean-look and the luxury flair.

The recliner mechanism comes with electrical remote control for easy functioning.

VICENTINO 0175

4D90

The unique design of Model VICENTINO's legs looks like the leg "cuts through" the sofa arm base and curves back. The curve of the leg corresponds beautifully to the curve of the sofa arm outer frame. To achieve such a sharp turning curve, solid stainless is once again the key element.

German-engineered sliding seat mechanisms (optional) offer extra seat depth for different sitting preferences.

VICENTINO 0175

Optional coffee table (no. STG3B) comes with the matching leg design and a black or white painted (tempered) glass top.

Head mechanisms supplied by Italian specialists deliver extra comfort on head and shoulders.

Model FARA II certainly has a good combination of trendy design elements and sitting functionality, which can become a key element of a luxury living room and delivers total satisfaction on sitting comfort.

The uniquely curved arm front is the key design element of Model FARA II. The specially designed stainless panel follows perfectly the curve of the sofa arm front and decorates most part of the arm front till it reaches the ground and becomes a part of the sofa leg.

FARA II 0160

The diamond-shape sewing patterns on the waist pillows of Model FARA II certainly add fashion elements to the model.

German-engineered sliding seat mechanisms (optional) offer extra seat depth for different sitting preferences.

Head mechanisms supplied by Italian specialists deliver extra comfort on head and shoulders.

FARA I 0159

3DHM

Model FARA I is the minimalistic version of Model FARA. It has the general outer shape of FARA II. The diamond-shape sewing patterns on the waist pillows (from FONTE II) have been eliminated. FARA I is perfect for those who prefer a cleaner look for their living room, and yet, appreciate the unique outer shape and functions of Model FARA.

FOZA I 0161

4RAHM

SXLHM

The slightly round-shape as the general outline of Model FOZA I offers a design alternative for those who want something different from the conventional square-look on European modern style sofas.

Low-back sofa sets always match perfectly with European modern living room setting. The German-made high quality mechanisms realize low-back-design sofas and gives sitting support from back to head.

Covering with curved leather strips is the eye catching design element of Model FOZA I. Presenting them with alternate colors enhances the visual effect of the curves. Realizing the leather cover with curve strips demands high level of leathercraft and sewing techniques.

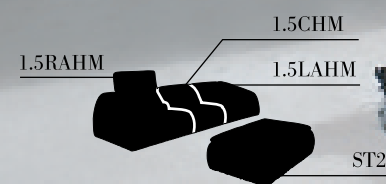

The ultra-thin seat cushion gives extra room for the seat frame to present the unique curve strips pattern. It also has its uniqueness by itself.

The curved leather strips pattern circles around the whole group of Model FOZA I makes it a focal point when it is placed in the middle of a living room.

Optional coffee table (no. STG3B) comes with matching designs and a black or white painted (tempered) glass top.

FOZA II 0162

FOZA II 0162

For those who prefers a simpler color scheme, and yet, appreciates the showy detail from the curve strips, Model FOZA II offers the perforated effect alternately among the strips. The effect brings out the individuality of each curve strip element without the need of alternating the color arrangement.

FOZA II 0162

Low-back sofa sets always match perfectly with European modern living room setting. The German-made high quality mechanisms realize low-back-design sofas and gives sitting support from back to head.

Optional stool (no. ST2) comes with matching designs of the sofa base frame.

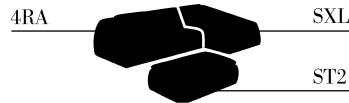

Optional stool (no. ST2) comes with matching designs of the sofa base frame.

Model RIESE I is an alternative to Model FARA I for those who don't want the German head mechanisms. A simple and thin-style back cushions not only matches perfectly the seat cushions, it also delivers good comfort. Optional headrest (no. HR2) is also available.

RIESE I 0181

RIESE II 0182

3D

AC36

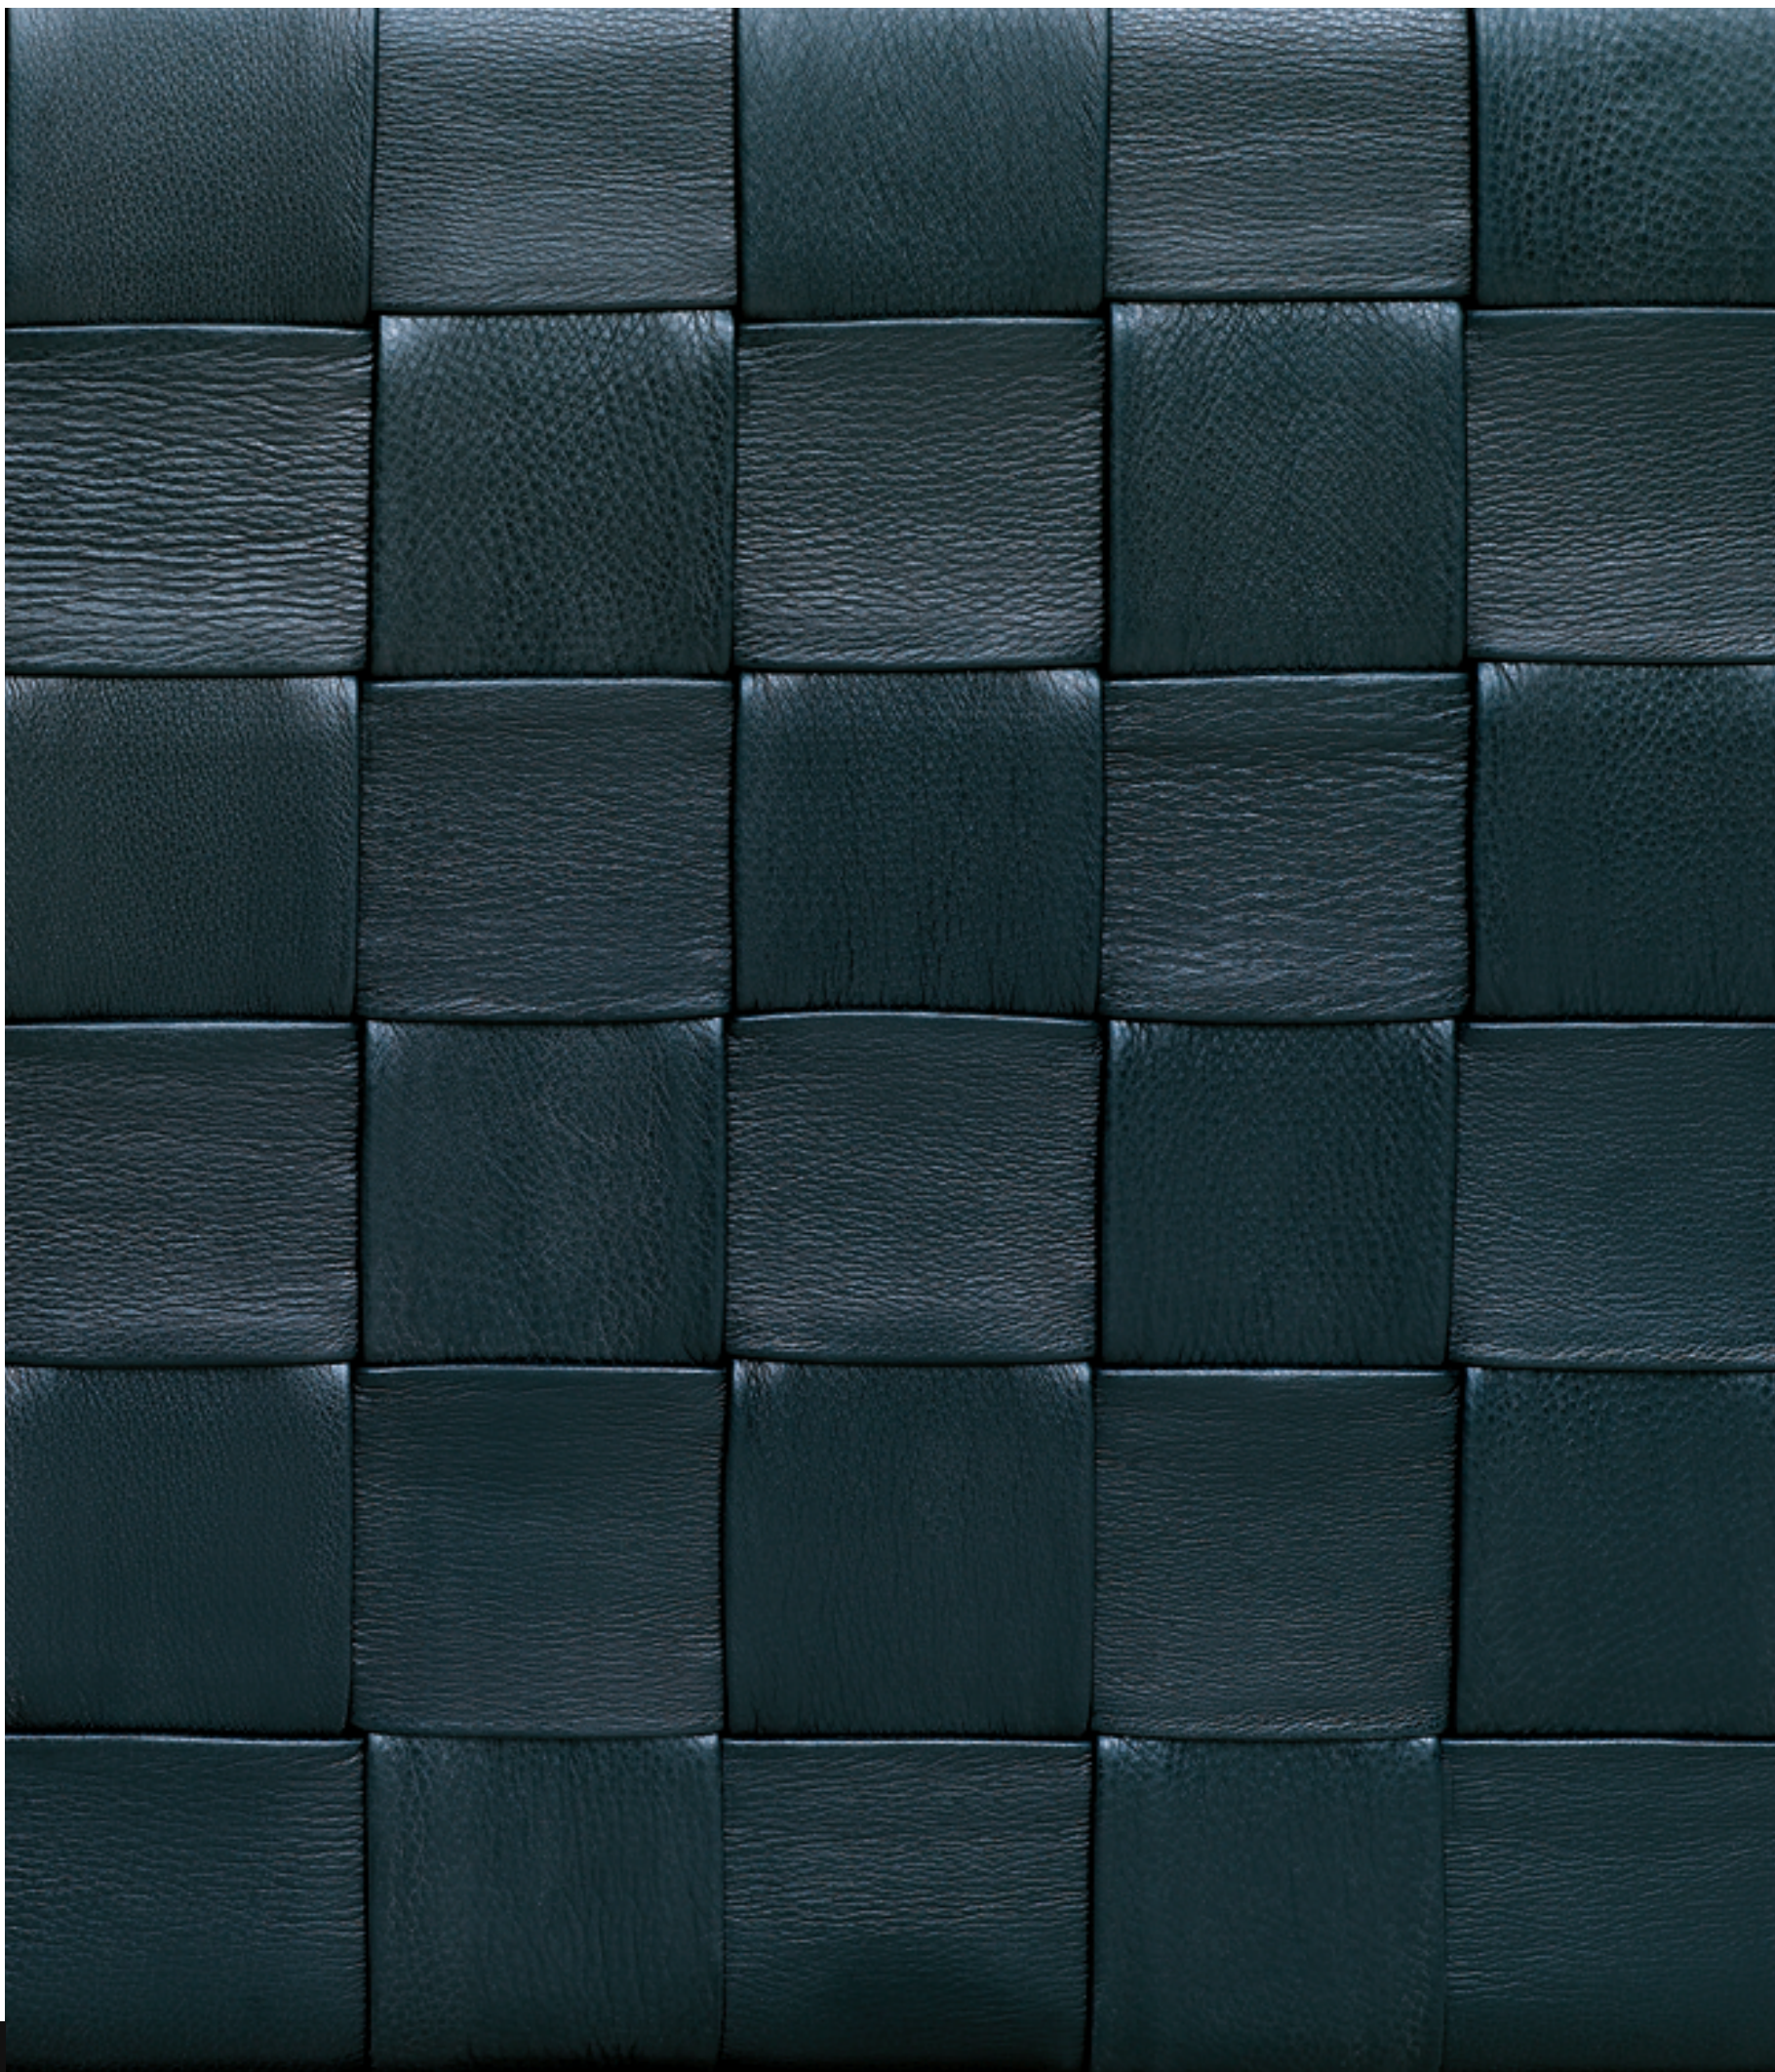

RIESE II 0182

Model RIESE II is an alternative to Model FARA II for those who don't want the German head mechanisms. A simple and thin-style back cushions not only matches perfectly the seat cushions, it also delivers good comfort. Optional headrest (no. HR2) is also available.

AC36 is a special edition derived from another armchair style AC20. It's specially re-designed to match Model FARA and Model RIESE. It can be presented as perforated or with alternate color scheme.

STRADA II 0168

SXR

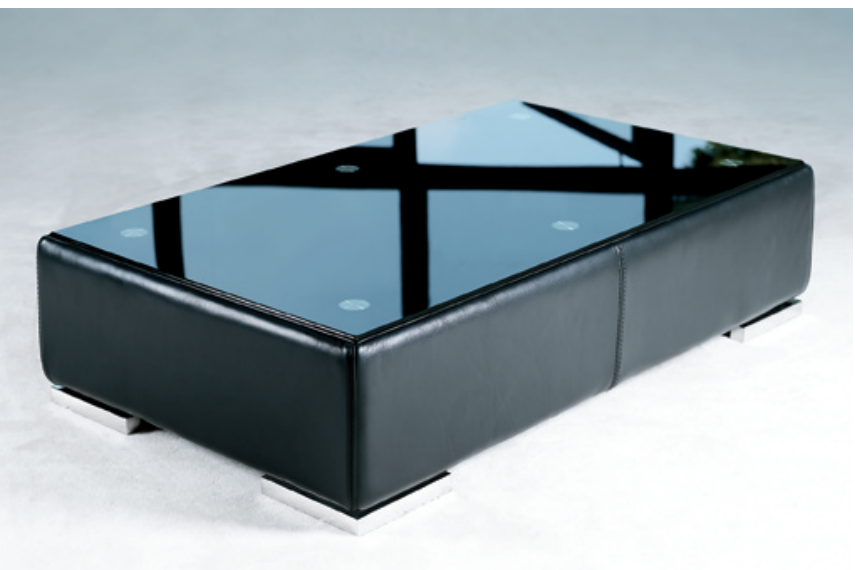

4LA

STRADA II 0168

STRADA II 0168

Optional coffee table (no. STG3B) comes with matching designs and a black or white painted (tempered) glass top.

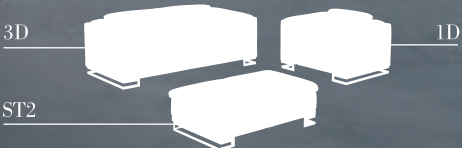

The woven effect seen on Model STRADA II is actually realized by extremely fine master handwork. Due to the natural irregular elasticity of genuine leather, weaving fine leather strips to form a uniform woven surface is time consuming and certainly an art work to be appreciated.

Optional headrest (no. HR2) delivers extra comfort and head support.

STRADA I 0167

For those who prefers a cleaner appearance of the sofa to match a rather minimalistic style living room, Model STRADA I will be a wonderful choice.

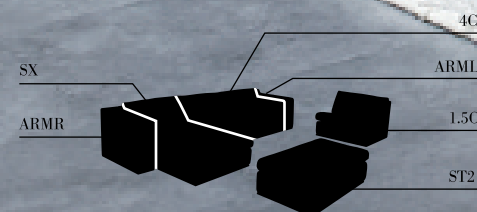

The sofa legs are made with solid stainless steel that run from the front to the back of the sofa arm in one piece.

Optional stool (no. ST2) comes with matching designs of the sofa base frame and leg.

Optional headrest (no. HR2) delivers extra comfort and head support.

MOLINI 0176

MOLINI 0176

MOLINI 0176

Optional headrest (no. HR2) delivers extra comfort and head support.

Model MOLINI has a unique feature of having the sofa arm being attached and detached very easily with a single hand tool and without the necessity of uncovering the sofa base. Customers can buy a sofa today and add sofa arms in the later future. There is no hole at the side of the sofas for fixing the arms. With such a feature, customers can easily change the direction of the L-shape sofa group from left to right, or vice versa, by themselves at home.
