MOLISE 1 0261A

MOLISE I 0261A

Model MOLISE is a modern expression of classical elements. The panel extension from the back frame toward the side is a classical feature. The ultra-height back (over 1 meter height) design is rarely found in contemporary style sofas. With thin round seat cushions, generally round-shape frames and waist pillows, Model MOLISE truly interprets classical elements a modern way.

Optional stool (no. ST2) comes with matching thin round cushions and round base of Model MOLISE.

MOLISE I 0261A

There are 3 optional designs for the waist cushions. The diamond pattern of Model MOLISE III gives the model a classical look. The short-straight lines pattern of Model MOLISE II enhances the contemporary feel of the model. Model MOLISE I offers a clean and simple option on the waist cushions.

4LA

SENISE II 0262B

Optional genuine leather coffee table (no. STG3B) comes with black color coated tempered glass and with base design matching the sofa base of Model SENISE.

Model SENISE is the medium-height back version of Model MOLISE.
The more popular proportion of Model SENISE better matches with homes of regular ceiling height.
For the waist cushion designs, Model SENISE has the same 3 options as what Model MOLISE has (please refer to Page 7 for detail).

ORTONA II H0266

Optional stool (no. ST2) comes with matching sofa base frame front pattern and leg design of Model ORTONA.

Model ORTONA has a thin arm and base frame front design. There are 5 different ways to finish the base frame front. The sofa leg composes of 2 elements. It can be either a match of leather wrap leg and solid wood foot panel (no. H0266) or the foot panel can be made with 8mm solid stainless steel (no. M0266). The extraordinary triangular-shape arm cushions enhance the uniqueness of Model ORTONA.

ORTONA II M0266

ORTONA II H0266

ORTONA II H0266

Optional headrest (no. HR3) enhances the comfort of your head.

ORTONA II H0266

Model ORTONA V features solid wood base front panels which shall always match with solid wood sofa foot panels. There are 6 different solid wood colors for customization.

Model ORTONA IV features stainless steel base front panels which shall always match with stainless steel sofa foot panels.

Model ORTONA III features genuine leather wrap base front panels with continuous straight lines pattern which are hand-made by high level leather craftsmanship.

Model ORTONA II features genuine leather wrap base front panel with diamond-pattern stitching. Every diamond-pattern stitching is done by highly skillful hands (not by machines) that upgrades the perceived value of the Model ORTONA.

Model ORTONA I features genuine leather wrap base front panel with a clean and simple look. That's a part of the KELVIN GIORMANI design concept while there is always a minimalist version within a model series to choose from.

MANTOVA III H0277

Model MANTOVA is an upgrade of Model ORTONA. The value-added adjustable head mechanism delivers extra comfort when needed and realizes the low-back contemporary look on the model when the mechanism is closed. Model MANTOVA III features genuine leather wrap base front panel with continuous straight lines pattern which are hand-made by high level leather craftsmanship.

The back mechanisms which have multi-locking positions are made in Germany by Hettich International.

Optional stool (no. ST2) comes with matching sofa base frame front pattern and leg design of Model MANTOVA.

The sofa leg composes of 2 elements. It can be either a match of leather wrap leg and 8mm solid stainless sofa foot panel (no. M0277) or the foot panel can be made with solid wood (no. H0277).

With the solid wood foot panel (no. H0277), Model MANTOVA offers 6 different wood colors to choose from.

Model MANTOVA V features solid wood base front panels which shall always match with solid wood sofa foot panels. There are 6 different solid wood colors for customization.

Model MANTOVA IV features stainless steel base front panels which shall always match with stainless steel sofa foot panels.

TERMOLI M0264

Model TERMOLI is another minimalist, easy-to-match model in the KELVIN GIORMANI Collection. It features "double-edge" stitching which realizes extraordinary sharp corners and square-shape on the arms, seat and back cushions of the model.

TERMOLI M0264

Optional headrest (no. HR3) enhances the comfort of your head.

Optional stool (no. ST2) comes with matching sofa seat and leg design of Model TERMOLI.

LUCERA II 0280B

LUCERA I 0280A

0280B - 1D

0280A - 4D

Optional stool (no. ST2) comes with matching sofa seat and base frames of Model LUCERA.

The second version of LUCERA II (no. 0280B) has a feature to accommodate the headrests for head comfort enhancement. If headrests shall never be required, LUCERA I(no. 0280A) shall be a better option.

Headrests are not only available to armchairs, they also can be added to all sofa items of Model LUCERA II (no. 0280B).

LUCERA I 0280A

The design of Model LUCERA is inspired by leather bed panels with tufted square patterns. The design of the sofa back panel is continuing to the sofa base frame which becomes a smooth extension. The minimalist design of the sofa arms and seat frames matches perfectly with the back-and-base frame feature. The waist cushions enhance the lumbar support.

LUCERA I 0280A

Featuring the tufted-square design continuation from the sofa back to base frames, Model LUCERA looks grand and magnificent when it's in a large corner composition. It's a perfect choice for an extra large living room in a luxury mansion.

LUCERA I 0280A

The minimalist design of the sofa arms and seat frames matches perfectly with the back-and-base frame feature. The waist cushions enhance the lumbar support.

Optional genuine leather coffee table (no. STG3W) comes with white color coated tempered glass, easy-to-match base and hidden legs.

KELVIN GIORMANI
Luxury Sofas

TRONTO III 0273

TRONTO III (no. 0273) is a model that can be well placed in a modern or transitional style living room. It's an easy-to-match model which has flat and comfortable arm cushions that are filled with feather. If you prefer not to have tufted squares on back and seat cushions, TRONTO I (no. 0271) shall be the option. Its design eliminates all the tufted squares which creates a cleaner and simpler look.

Optional genuine leather coffee table (no. STG3W) comes with white color coated tempered glass and with base design matching the sofa base of Model TRONTO.

TRONTO III 0273

Optional headrest (no. HR3) enhances the comfort of your head.
 Optional seat-sliding function enables additional seat depth. The mechanism (SM3) is made in Germany by Kemmann and Koch.

TRONTO II 0272

To optimally add some eye-catching elements on a minimalist design is always a key design concept of KELVIN GIORMANI sofas. Just applying diamond-pattern stitchings at the side the back cushions has already been good enough to highlight a simple model to become exceptional. Every diamond-pattern stitching is done by highly skillful hands (not by machines) that upgrades the perceived value of Model TRONTO II (no. 0272).

Optional stool (no. ST2) comes with matching sofa seat and base frames of Model TRONTO.

TRONTO II (no. 0272) is a model that can be well placed in a modern or transitional style living room. It's an easy-to-match model which has flat and comfortable arm cushions that are filled with feather.

ANZIO 0274

ANZIO 0274

Optional headrest (no. HR) enhances the comfort of your head.

The outlook design of Model ANZIO is in fact a continuation of the design of Model ARSIZIO (2011 Spring Collection). The "see-through" stainless steel arm frames and legs as well as the extra large sitting space are distinctive features of both Model ANZIO and ARSIZIO.

The main feature of Model ANZIO is the particular back-and-forth mechanism which allows the sofa back to move forward and backward easily and smoothly. When the sofa back moves backward, it creates extra seat depth and space which allows more different sitting postures. The mechanism is made by a well-known Italian sofa mechanism expert.

Model ANZIO features a genuine leather sheet that covers each track when the mechanism is running backward. The size and position of the leather sheets are well matching the tufted squares on the seat cushions. This additional feature becomes "hidden" in the seat cushion design.
