KELVIN GIORMANI

A design that's inspired by the curves of marine life.

MARINO

MARINO

Leather: 9409-1.5RA+CC1+CC1+1.5LA+1.5C (subject to availability)
Leather: 9409-1DV (subject to availability)

MARINO 0557

MARINO

Leather: 9415-3D (subject to availability)

MARINO 0557

Model MARINO skus include a curved connecting unit (item number CC1) that serves two functions, namely, glass table top and internal storage cabinet. The glass table top comes with black or white colors to choose from.

The core design concept for Model MARINO is to create a power-motion upholstery model that has multi-facets of curved shapes-and-forms. This is to differentiate KELVIN GIORMANI motion sofa design from the others in the market when most motion sofas out there continue the conventional square-look and boxy appearance.

The name MARINO (an Italian word meaning "marine") came from the fact that most marine creatures are born to have curved and streamline body shapes.

Model Marino's curved elements include the curved arm design in various facets. While the footrests are closed, they curve inward in a large extend that allows the footrest to be longer than those of most other motion sofas in the market, so that even a person with almost 180cm tall can feel the support at the end of the footrests under his feet.

The curved-in feature of the footrests also creates extra room under the sofa to allow more design possibility for sofa legs.

The curved leg design was inspired by octopus legs which is one of the marine animals' nature.

Thanks to the latest advancement of power-motion mechanisms which are getting smaller in sizes. It enables the back-side base of Model MARINO to be trimmed in size and curved inward.

The perforated strip on every back rest has added some fashion element to Model MARINO. Perforation is a leather craftsmanship technique that is commonly applied on various leather fashion goods. Being fashion-driven is also a key design concept for KELVIN GIORMANI sofas.

Motion sofas provide extra-ordinary comfort through advanced power-mechanisms; however, the metal mechanism itself is not so good-looking. Therefore, another design objective that we'd like to achieve through Model MARINO is to let the metal mechanisms to be as hidden as possible.

For Model MARINO's footrest mechanisms, they are fixed toward the center of the entire upholstered footrests; therefore, when a footrest is open up, the metal mechanisms are less visible in comparing with other motion sofa designs when most of their footrest mechanisms are fixed obviously at the left and right ends of the upholstered footrests.

At the back side of the Model MARINO's headrests, the entire metal mechanism is hidden.

With MARINO design and KELVIN GIORMANI leather tailoring quality, you can be proud to flow your power-motion sofa in the middle of the living room. It'll be a waste if Model MARINO's back is placed against a living room wall.

Model MARINO's legs comes with 3 optional stainless steel colors, namely, antique brass color (as seen on the photo), dark nickel color and satin stainless steel.

Dark nickel color (as seen on the photo) has becomes a trendy stainless steel color for legs of European contemporary style sofas.

Satin stainless steel finish on sofa legs (as seen on the photo) is always well matching with modern living room interior design.

Model MARINO's headrest and footrest mechanisms work independently to enable more flexibility for personalizing your most favorite seating angles.

Model MARINO is the best KELVIN GIORMANI power-motion model so far for watching TV while both mechanisms are fully extended (while a couch potato is half-laying on the sofa).

Memory-switch is a new optional feature in Model MARINO. With a minimal extra charge and easy operation, you can experience the convenience of having two memorized seating positions per seat at your choice.

Beside item number CC1, there is another curved connecting unit with item number 1.5CR (the middle unit as seen on the photo) that can be a comfortable single-middle seater (stationary) to connect two motion-recliners at both sides.

Leather: 9423-1.5RA+3LA (subject to availability)
Leather: 9401-1D (subject to availability)

ESTENDE 0558

Model ESTENDE is another new power-reclining motion sofa design from KELVIN GIORMANI that features a sofa arm with exceptional design. The arm is starting with a thin leather-upholstered curved-shape top at the outside and continuing to become a round-shape contemporary sofa arm that ends with a stylish solid-stainless steel leg.

ESTENDE is an Italian word means "extend." When Model ESTENDE's reclining motions are fully extended, it has the longest length (from head-rest to foot-rest) among KELVIN GIORMANI models so far.

Model ESTENDE comes with 3 optional stainless steel colors, namely, satin stainless steel finish (as seen on the photo), antique brass color and dark nickel color.

When Model ESTENDE comes with the antique brass color stainless steel legs (as seen on the photo) and a warm tone genuine leather, it becomes a perfect match to transitional style living room interior.

Dark nickel color (as seen on the photo) has become a trendy stainless steel color for legs of European contemporary style sofas.

After all, the timeless design of Model ESTENDE enables it to crossover with contemporary style or transitional style living room interior, depending on your choice of leather color tone and stainless steel leg color.

Leather: 9401-BXR+1.5DC+CT+3LA (subject to availability)
 Leather: 3190-1D (subject to availability)

ALBANI II S0499

ALBANI II

Model ALBANI is a design of minimalism that is meant for matching with any European contemporary style living room interior.

The optional head rest (as seen on the photo) enhances seating comfort.

The particularity of Model ALBANI is the possibility of composing large and exceptional compositions with SKUs, as seen on the photo, such as item number CT, BXL and 1.5DC that can be the connecting units at both sides. The final composition can "flow" in the middle of a sizable living room but not like a "wall." The openness concept of the ALBANI sofa set creates a livelier living room atmosphere.

Model ALBANI's design highlight is the stainless steel decorative trims along the sofa base and the stainless steel leg that is engraved with a unique multi-straight-line pattern.

UCCELLO

4D   1D

Leather: 9407-4D (subject to availability)
Leather: 2216-1D (subject to availability)

UCCELLO 0563

UCCELLO

Model UCCELLO's angled leg is specially designed to place at the sofa arm side which makes it more visible. The high-profile leg becomes a more important accessory for Model UCCELLO.

"UCCELLO" means "bird" in Italian words. Model UCCELLO has as an angled sofa arm-frame with a thin arm-top extension which resembles the shape of an expanding bird wing.

The thin sofa arm-top extension is realized by a 5mm thin solid metal plate inside that ensures the structural stability. The generally round shape of the sofa arm well corresponds to the round & streamline form of birds in general, the form of nature that facilitates flying.

Model UCCELLO's legs comes with 3 optional stainless steel colors, namely, antique brass color (as seen on the photo), dark nickel color and satin stainless steel.

Dark nickel color (as seen on the photo) has becomes a trendy stainless steel color for legs of European contemporary style sofas.

The seat cushion front is round & seamless that enhances the easy-maintenance of the sofa.

The back cushions are loose and the seat cushions are tight.

The back and seat cushions have a high-density polyurethane foam core and the seat softness is in Level 5.

UCCELLO

Satin stainless steel finish on sofa legs (as seen on the photo) is always well matching with modern living room interior design.

The optional head rest (as seen on the photo) enhances seating comfort.

Leather: 9415-SXR+4LA (subject to availability)
Leather: 2296-1D (subject to availability)

COLONNA I 0564

“COLONNA” means column in Italian words.

The legs of Model COLONNA are in form of round columns that are visible at both sides of the sofa arms and at the seat front frame of the chaise lounge.

At the top of the leg column, there is a curved stainless strip that connects both columns and placed at each arm side of the sofa. The entire metal leg structure becomes a high-profile design element that characterizes Model COLONNA.

Model COLONNA's legs comes with 3 optional stainless steel colors, namely, dark nickel color (as seen on the photo), antique brass color and satin stainless steel.

Dark nickel color (as seen on the photo) has become a trendy stainless steel color for legs of European contemporary style sofas.

Satin stainless steel finish on sofa legs (as seen on the photo) is always well matching with modern living room interior design.

Model COLONNA's legs come with 3 optional stainless steel colors, namely, antique brass color (as seen on the photo), dark nickel color and satin stainless steel.

The back cushions are loose and the seat cushions are tight.

The back cushion core is filled with feather at the front and polyurethane foam at the back. The seat cushions are filled with high-density polyurethane foam and with softness in Level 5.

There are 2 versions for Model COLONNA. Model COLONNA I (no. 0564, as seen on the photo) is the minimal version. Model COLONNA II (no. 0565, as seen on Page 57) comes with the "small diamond-shape weaving" leathercraft feature. Incorporating fashion-driven leather-craftsmanship into sofa design is always a signature design concept for KELVIN GIORMANI.

AC85-1DV

Leather: 3113-4D (subject to availability)
Leather: 3128/3186-1DV (subject to availability)

COLONNA II 0565

"COLONNA" means column in Italian words.

The legs of Model COLONNA are in form of round columns that are visible at both sides of the sofa arms and at the seat front frame of the chaise lounge.

At the top of the leg columns, there is a curved stainless strap that connects both columns and placed at each arm side of the sofa. The entire metal leg structure becomes a high-profile design element that characterizes Model COLONNA.

Model COLONNA's legs comes with 3 optional stainless steel colors, namely, satin stainless steel finish (as seen on the photo), antique brass color and dark nickel color.

Model COLONNA's legs comes with 3 optional stainless steel colors, namely, satin stainless steel finish (as seen on the photo), antique brass color and dark nickel color.

The back cushion core is filled with feather at the front and polyurethane foam at the back. The seat cushions are filled with high-density polyurethane foam and with softness in Level 5.

Dark nickel color (as seen on the photo) has becomes a trendy stainless steel color for legs of European contemporary style sofas.

When Model COLONNA comes with the antique brass color stainless steel legs (as seen on the photo) and a dark silky semi-aniline leather, it will well match with transitional style living room interior.

There are 2 versions for Model COLONNA. Model COLONNA I (no. 0564, as seen on Page 44) is the minimal version. Model COLONNA II (no. 0565, as seen on the photo) comes with the "small diamond-shape weaving" leathercraft feature. Incorporating fashion-driven leather-craftsmanship into sofa design is always a signature design concept for KELVIN GIORMANI.

KELVIN GIORMANI

NASTRO II

4D

Leather: 9423-4D (subject to availability)

NASTRO I 0572

“NASTRO” means ribbon in Italian words. The shapes and forms of Model NASTRO’s arms and legs resemble the beauty of “waving” ribbons.

There are 2 versions for Model NASTRO. Model NASTRO I (no. 0572, as seen on the photo) is the high-back version, and Model NASTRO II (no. 0573, as seen on Page 70) is the low-back version.

For NASTRO I (no. 0572), both back cushions and the seat cushions are tight. The back cushion has a polyurethane foam core and the seat softness is in Level 5.

NASTRO I

The shapes and forms of Model NASTRO's arms and legs resemble the beauty of "waving" ribbons.

The slim and curved arm is realized by the 10mm thin solid metal strip inside that ensures the structural stability. The outside is upholstered by genuine leather that creates the comfort as an arm rest requires.

Leather: 7517-4D3 (subject to availability)
Leather: 6181-1D (subject to availability)

NASTRO II 0573

70

COLLECTION BOOK

NASTRO II

The shapes and forms of Model NASTRO's arms and legs resemble the beauty of "waving" ribbons.

Thanks to the solid metal structure, the arm of Model NASTRO can achieve the exceptional width of only 10cm and unusual "thinness" of only 25mm, which realizes the "ribbons" inspired design feature.

The slim and curved leg is also made with solid (thickness 10mm) stainless steel that ensures the structural stability. It comes with 3 standard colors, namely, satin stainless steel, dark nickel color and antique brass color.

Besides, the narrowed arm design also gives rooms for more seating width. As a result, Model NASTRO provides additional SKU (items), such as, 4D3 (a 221cm sofa with 3 independent seats, as seen on the photo), and a 2D (a 154cm 2-seater).

There are 2 versions for Model NASTRO. Model NASTRO I (no. 0572, as seen on Page 67) is the high-back version, and Model NASTRO II (no. 0573, as seen on the photo) is the low-back version.

Model NASTRO's legs comes with 3 optional stainless steel colors, namely, antique brass color (as seen on the photo), dark nickel color and satin stainless steel.

Satin stainless steel finish on sofa legs (as seen on the photo) is always well matching with modern living room interior design.

The optional head rest (as seen on the photo) enhances seating comfort.

For NASTRO II (no. 0573), the back cushions are loose and the seat cushions are tight. The back cushion has a polyurethane foam core and the seat softness is in Level 5.

Dark nickel color (as seen on the photo) has become a trendy stainless steel color for legs of European contemporary style sofas.

Leather: 0521/0562-4D (subject to availability)

MAESTRIA X 0545C

Model MAESTRIA was first-time released in 2017. It has already been given several creative leather-crafting patterns and placed at the sofa arm interior. This Version Ten (X) as seen on the photo is the latest version that's meant for perfecting the craftsmanship of the borders surrounding the small diamond-shape weaving.

The alternate 2-tone effect that's presented with the small diamond-shape weaving feature is a step-up from the conventional mono-tone effect.

Satin stainless steel finish on sofa legs (as seen on the photo) is always well matching with modern living room interior design.

Model MAESTRIA's legs comes with 3 optional stainless steel colors, namely, antique brass color (as seen on the photo), dark nickel color and satin stainless steel.

MAESTRIA X

Dark nickel color (as seen on the photo) has becomes a trendy stainless steel color for legs of European contemporary style sofas.

KELVIN GIORMANI

CANI

2D

Leather: 0519-2D (subject to availability)

CANI 0574

"CANI" means "dogs" in Italian. For the year 2018 (starting from Feb 19, 2018), it's the Year of the Dog according to the Chinese zodiac, where the design inspiration of Model CANI was from.

Model CANI's core structure is enhanced by a solid stainless steel frame together with a pair of solid stainless steel legs. It has achieved a proper pitch for seating comfort and realized the essence of a dog paw print together with the leather-upholstery elements.

Model SNELLO was first-time released in 2013 and a Pinnacle Design Achievement Award winning design in 2014 (awarded by American Society of Furniture Designers). It has also become one of the most popular designs so far that features various fashion-driven leather-crafting features, which is KELVIN GIORMANI's signature design concept.

CXL 

Leather: 0522/0528-CXL (subject to availability)

SNELLO XI 0453A

To celebrate the 5th anniversary of the birth of Model SNELLO, KELVIN GIORMANI has introduced a new SKU, as seen on the photo, which is a stand-alone chaise.

The alternate 2-tone effect that's presented with the small diamond-shape weaving feature is a step-up from the conventional, 2013 released, mono-tone effect.

Model SNELLO's legs come with 3 optional stainless steel colors, namely, satin stainless steel finish (as seen on the photo), dark nickel color and antique brass color.

Antique brass color (as seen on the photo) on stainless steel sofa legs can add the transitional flair to the sofa model.

Dark nickel color (as seen on the photo) has become a trendy stainless steel color for legs of European contemporary style sofas.

Model SNELLO was first-time released in 2013 and a Pinnacle Design Achievement Award winning design in 2014 (awarded by American Society of Furniture Designers). It has also become one of the most popular designs so far that features various fashion-driven leather-crafting features, which is KELVIN GIORMANI's signature design concept.

Beside the version with small diamond-shape weaving (as seen on Page 92), KELVIN GIORMANI created, in 2013, the small square-shape weaving feature that's enhanced with alternate-perforation effect (as seen on the photo).

Leather: 7520-CXL (subject to availability)

SNELLO XIII 0454A

To celebrate the 5th anniversary of the birth of Model SNELLO, KELVIN GIORMANI has introduced a new SKU, as seen on the photo, which is a stand-alone chaise.

Beside the version with small diamond-shape weaving (as seen on Page 92), KELVIN GIORMANI created small square-shape weaving feature that's enhanced with alternated-perforation effect (as seen on the photo) in 2013.

Model SNELLO's legs comes with 3 optional stainless steel colors, namely, dark nickel color (as seen on the photo), satin stainless steel and antique brass color.

Antique brass color (as seen on the photo) on stainless steel sofa legs can add the transitional flair to the sofa model.

Satin stainless steel finish on sofa legs (as seen on the photo) is always well matching with modern living room interior design.

4D 

Leather: 9407/9486-4D (subject to availability)

LARGO XVIII 0566

Model LARGO was first-time released in 2016, which was one of the few KELVIN GIORMANI designs with the concept of "armless" sofas. In 2018, answering the request from a good number of KELVIN GIORMANI dealers worldwide, we added a new version (as seen on the photo) with sofa arms.

In 2017, KELVIN GIORMANI made use of the "cut-and-stitch" leather-crafting technique and created several animal-inspired creative patterns to place on Model MAESTRIA.

In 2018, KELVIN GIORMANI selected the "peacock" pattern and placed it at the back of Designer Chair AC73.

In 2017, KELVIN GIORMANI made use of the "cut-and-stitch" leather-crafting technique and created several animal-inspired creative patterns to place on Model MAESTRIA.

In 2018, KELVIN GIORMANI selected the "eagle" pattern and placed it at the back of Designer Chair AC73

A series of new coffee tables (designed by Kelvin Ng) that comes with 3 different shapes, namely circle, square and rectangle, and 2 different heights, namely 39cm and 50cm. The coffee table top is made with tempered glass and have black or white color to choose from.

The coffee legs comes with 3 optional stainless steel colors, namely, satin stainless steel finish (as seen on the photo), dark nickel color and antique brass color.

FORME I / FORME II / FORME IV

The design highlight of this coffee table series is the genuine leather-upholstered trim that can be custom-ordered in any leather within the KELVIN GIORMANI leather collection.

FORME I / FORME III / FORME IV

To enrich this new coffee table series, Kelvin has specially added two low-stools in either circle or square shape. They can be creatively inserted within the coffee set to make it livelier as a group. The stools can be made with fashion leather, such as, gold or silver color genuine leather to enhance the luxury flair of the living room.

FORME III

A new series of coffee table that was designed by Michele Mantovani, KELVIN GIORMANI's associated Italian designer, which features genuine leather-upholstered table top that can be custom-ordered in any leather within the KELVIN GIORMANI leather collection.

The coffee table legs are made with sleek and round-shape stainless steel bars.
