about us

At animovel, we have been manufacturing and developing furniture since 1958. For over 60 years, we have stood out as one of the main drivers of innovation and production in the Portuguese furniture sector.

We create and design versatile and innovative collections, in partnership with several renowned national and international product designers. It was this pioneering sense of innovation and product development that drove animovel to the success.

Today we have about 80 dedicated professionals, in a production unit spanning more than 8000m², and with the most advanced technology that this industry knows.

In six decades, it was the entrepreneurial spirit that marked all the advances and developments, in a space that grew in a consistent way, and always focused on the sustainable future of the animovel family.

our story

Founded by Aníbal Carneiro, animovel, then known and registered under his own name, Aníbal Carneiro Barbosa Lda, started its activity in 1958.

our designers

christophe lecomte

Graduated from ESAA BOULE school in 1990, Christophe LECOMTE started his advertising career, creating prototype flasks and PLVs for an important cosmetics brands. His technical knowledge and passion for furniture naturally encouraged him to create his own activity as an independent designer, putting his creativity at the service of the collections of major brands and manufacturers. Today its collections navigate between emotion and function, with a common denominator of elegance and ergonomics.

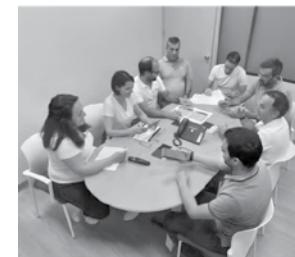

joana magalhães

Born and raised in Porto, Portugal, Joana completed a Degree in Architecture at the University of Porto, one of the most prestigious Schools of Architecture in Europe, having spent an academic year at the Federico II University in Naples, Italy. Joana started her career working at the studio Alvaro Leite Siza Vieira, in a very international and avant-garde environment. In 2003, Joana moved to Madrid, where her work encompassed residential and winery architecture and interior design.

alexandre calvário

Industrial designer, graduated from the Universidade Técnica of Lisbon and with nearly a decade of experience in the development and design of high-end and luxury furniture. He has been collaborating for a few years with several independent partners and brands in interior design projects and has recently started to collaborate with animovel. He developed some products related to the new rebranding of the animovel brand, which were included in the upholstery collection.

anidesign

The anidesign studio, an integral part of animovel, works on product development and design. The know-how accumulated from decades of experience allows the technical team to design new products and develop different concepts whenever possible. At anidesign, pieces like our Puzzle table were created and developed with the greatest detail and consideration for contemporary design elements. The technical team is endowed with talent, experience and this enables the in-house development of unique pieces.

Carat is inspired by the architectural and visual work of high-rise buildings, highlighting the beauty of the furniture in a rigorous, methodical and vertical line.

This style is apparent in the modelling work of the parts including the discreet metalized handles on the sideboards and modules.
