

Please also note our general details and sales information

Edition 28.01.2019

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite with wooden base frame

Seat upholstery structure: zig-zag springs, Dacron, barrel springs, Diolen

Back upholstery structure: rubber straps, polystyrene foam, Diolen

Stool upholstery structure: polystyrene foam

UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not wavelless. The ridge of the covers on the seat, back and the armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

FUNCTIONS

RAISABLE FUNCTIONAL BACK CUSHION

With all elements the back cushions can be raised by a ratchet mechanism. The sofa becomes a high back.

FUNCTIONAL BACK FOR SEAT DEPTH ADJUSTMENT

It can be chosen between elements with functional back (code X) and elements with fixed back (without another code).

Functional back: The back adjustment is released via incorporated metal joints by light lifting and concurrent pressure backwards respectively concurrent draw forwards. Thereby the back can be put forward or backward. Therefore the seat depth is reduced respectively enlarged. The armrests are moving at the same time.

Information for add-on combinations: Elements with and elements without seat depth adjustment can't be combined with each other.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

LEGS

metal leg shiny chrome. Optional 5,5 cm (sh 42) or 7,5 cm (sh 44) high.

TABLES

Hinged with storage space.

Rectangular tables without upholstered back. Angle tables optional with or without upholstered back.

The outsides of the rectangular and angle tables are covered according to the suite.

The surface is optionally available in:

- **Wood veneer:** am. walnut (oiled), oak in the colours oak natural, P11 or black (lacquered). If desired more colours on the basis of oak veneer according to sample against extra charge (5 %) available.
- Alternative veneers are possibly available as custom-made product. We are pleased to make an individual offer.
- **MDF lacquered:** black, brown, cream white.

Audio tables: Angle tables with upholstered back are also available as audio tables. They enable the playback of music by a plugged loudspeaker on the rear side (power output: 12 W RMS, 24 W PMPO). The real sound level depends on the frequency source and the soundfile.

By Bluetooth receiver suitable for all Bluetooth compatible frequency sources as smartphones, tablet PCs or laptops. With docking station for iPhone (except iPhone 5) and iPod (except for iPod Shuffle, iPod Classic Photo 20GB/60GB) incl. integrated charger.

Note: With a „lightning on a 30-pin adapter“ - available as iPhone accessory directly at Apple - also the iPhone 5 can be connected to the docking station.

With SD- and USB input for the format MP3 and WMA as well as additional AUX input e.g. for using MP3 players, CD players or laptops without Bluetooth. Power plug and AUX cable are contained in the scope of delivery.

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

Please also note our general details and sales information

Edition 28.01.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

CONTRAST STITCHING

The seam construction diagram and the thread size are defined due to the model.

With leather covers the production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour. Therefore in such cases the finish must be chosen.

By processing with contrast stitching **the best matching colour of the contrast stitching** was chosen for each leather colour. It will be worked automatically while a certain colour of contrast stitching is not explicitly indicated on the order. More for it in the general sales information.

The below displayed combinations of seam colour and leather colour are recommended, exemplary assignments of the 6 available colours of contrast stitching.

LIGHT GREY 0321

BEIGE 1222

NOUGAT 0281

GREY 0415

DARK BROWN 1002

BLACK 4000

Unfortunately with fabric- and microfiber covers contrast stitching is not possible.

Exception fabric 13-BISON:

With this fabric it can be chosen between a production with contrast stitching or with a thread matching the fabric in terms of colour (tone-on-tone).

TRANSPORT

The included technology and/or the dimensions of the elements have an important influence on the total weight of the elements but also the respective chosen covering material and the factory-provided transport packing.

Being able to consider the specific features during transport of elements with heavy total weight sufficiently all elements with which the weight of at least one package - relating to averaged heavy covering and packing material - is approximately 80 kg or more are marked with an accordant pictogram in the right upper corner.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete specifications when ordering:

- **combination** (Attention: Elements with seat depth adjustment and elements without can't be combined with each other)
- **covering material**; with tables also **surface**
- with leather covers: production **with or without contrast stitching**
- **leg height** for seat height 42 or 44 cm
