# ARTISAN COLLECTION

Artisan the noun refers to a skilled worker or craftsman. Artisan the collection refers to the finest beginning of quality European case goods offered by Planum to date. Creating something truly new and different in today's world of contemporary furnishing is easier said than done. While often the norm to offer similar designs that exists in the marketplace, it is the true Artisan that can create something fresh, inviting and unique. This is Artisan!

Clean and concise on the outside, sculptural and artful within, Artisan offers an exacting combination of shape, design and materials that makes it like no other. Each piece of each door is hand veneered using quartered white oak veneers and applied to create a sculptural dimension to the case. Custom steel accents add a sleek contemporary refinement to the pieces. Storage and function co-exist within this special design offering.

Being unique in materials and design are not the only quality of Artisan. Today's discerning consumer desires the opportunity of choice when creating their environment. As with most Planum case goods, this has been true and never truer than with Artisan. The ability to custom create multiple finish and veneer combinations gives every consumer the opportunity to define their space in ways not often accommodated.

This is the beginning of Artisan. The end is nowhere in sight!
