DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, wooden base frame

Seat upholstery structure: zig-zag springs, Dacron, polystyrene foam VW 35, Diolen

Back upholstery structure: rubber straps, polystyrene foam, Diolen

UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not wavy. The ridge of the covers on the seat, back and the armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no reason for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

LEGS

Leg (16 cm high) optionally available in:

- aluminium shiny (polished)
- aluminium mat (satined)
- metal bronze lacquered
- metal powder-coated high gloss black

from the left to the right:

CUSHION RECOMMENDATION

With the **add-on corner IL/R** we recommend to use in addition the back cushion Y1 (68 x 48 cm) for an optimal and improved seat comfort.

SEAM

Depending on the model the seam on fabric covers may be different from leather covers, for example due to a different divide of the tensioning sections. Decorative leather seams (e.g. fell or double seams) may be omitted depending on the model or according to suitability of the fabric covering materials.

The seam construction diagram and the thread size are defined due to the model. Alternative to the standard seam processing a decorative stitch (cross stitch) can be chosen.

The decorative stitch is only used on the armrests as well as on the back.

CONTRAST STITCHING

Standard seam

By processing with standard seam the colour of the thread must be chosen with leather covers and with fabric 13 BISON.

Cross seam

When cross stitching is desired the colour of the thread must be chosen with all covering materials (fabric, microfiber and leather).

The processing is carried either **with contrast stitching** or with a **thread matching the leather in terms of colour (tone on tone)**.

With processing with contrast stitching the **desired colour of the contrast thread** must be explicitly chosen.

Edition 20.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective.

HEADREST

Headrest **YNX with sofas**, 60 x 71 cm and headrest **YNAX with armchair A**, 50 x 71 cm insertable with metal holder available in nickel satined (stainless steel optics).

The headrest can be adjusted by a ratchet mechanism that allows different positions.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete specifications when ordering:

- **combination** (with the add-on corner IL/R we recommend the back cushion Y1 68 x 48 cm for an optimal comfort)
- **covering material**
- seam: **standard seam** (according to the material fell seam or closed seam) **or cross stitch**
- with leather respectively fabric covers **production with or without contrast stitching** (with fabric covers the standard seam is not possible with contrast)
- with finish with contrast stitching **colour of contrast stitching**
- **leg finish**

Errors and amendments excepted. Our General Terms and Conditions are effective.
