Edition 22.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure:

Casual / loose: rubber straps, polystyrene foam VW 35, Diolen

Very casual with bay quilting: rubber straps, polystyrene foam VW 40, 80% foam sticks VW 40, 20% silic. hollow fiber, Diolen

Very casual / super soft: rubber straps, polystyrene foam VW 40, Diolen

Back upholstery structure with bay quilting: rubber straps, polystyrene foam, 50% foam sticks, 50% duck plumes, Diolen

UPHOLSTERY

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. Three upholstery versions are available.

Casual / loose: A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not waveless. The ridge of the covers on seat, back and the armrests as well as sitzmarks due to model and design are typical.

Very casual: A particularly casual upholstery is characterized by a very comfortable and soft surface. Even when new or after initial use, the covers can show a clearly visible wave pattern on the seat, back and armrests, which is unavoidable due to the design, construction and material and will increase with use. The size of the sewn covers also has a similar influence on sinking and cover stretching. The softer the upholstery and the larger the seat surface, the greater the sinking in and ultimately the cover stretching.

Bay quilting:

This high quality upholstery with bay quilting contains a flexible mixture out of loose filling material as foam sticks and/or plumes that enables a point adaptation to the body. For this the fillings are worked in separate bays that according to the cover come more or less apparent. Sitzmarks are due to model and design typical.

Very casual / super soft A particularly casual upholstery is characterized by a very comfortable and soft surface. Even when new or after initial use, the covers can show a clearly visible wave pattern on the seat, back and armrests, which is unavoidable due to the design, construction and material and will increase with use. The size of the sewn covers also has a similar influence on sinking and cover stretching. The softer the upholstery and the larger the seat surface, the greater the sinking in and ultimately the cover stretching. With this super soft seat comfort the wrinkling is desired and worked in with intent.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no reason for complaint.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

FUNCTIONS

Elements with low back
(without another code)

BACK ADJUSTMENT

The back is manually adjustable by a ratchet mechanism that allows different positions.

Elements with high back
(with code „H“)

I HEAD PIECE ADJUSTMENT

The head piece is manually adjustable by a ratchet mechanism that allows different positions.

II BACK ADJUSTMENT

The back is independently of the head piece adjustable by a ratchet mechanism.

optional, motor-driven foot rest FXM

A motor-driven foot rest can be installed as additional relax function (extra charge see price sheet).

The handling is effected by TOUCH-IT sensors which are affixed at the respective armrest.

With extended foot rest the total and the seat depth are enlarged up to 38 cm.

When ordering the respective foot rest (67 x 34 cm respectively 52 x 34) is automatically assigned and delivered suitable for the sofa respectively add-on element.

The foot rest can be installed with the following elements:

- single sofas with 2 AR
- add-on elements with 1 AR
(only at the respective armrest side)

Please note: With seats without armrest, daybeds and with the add-on corner the foot rest can't be installed due to the construction.

When ordering please indicate below which element and as the case may be below which seat (standing in front left or right side or both-sided) the foot rest is desired.

A later fitting is unfortunately not possible.

Edition 22.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective.

LEGS

Sword runner no. 1 (sh 45 cm) optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated mat black

from the left to the right:

Angle leg no. 2 (sh 45 cm) optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated structural black mat

from the left to the right:

Solid wooden runner no. 3 (sh 45 cm) optionally available in:

- wild oak (UV laminated with oil effect)
- walnut (UV laminated with oil effect)
- oak black ((stained lacquered)

Cast aluminium sword runner no. 4 (sh 42 cm) optionally available in:

- polished
- bronzed
- black mat
- from the left to the right:

FRAME

It can be chosen between a covered frame and a solid wooden frame.

The covered frame will be delivered on the lines of the chosen covering material.

The solid wooden frame is optionally available against extra charge (see price sheet) in:

- walnut (UV laminated with oil effect)
- wild oak (UV laminated with oil effect)

from the left to the right:

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric 13-BISON a **contrast thread colour** must be explicitly chosen.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible (**Exception 13-BISON**).

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

NECK CUSHION

Neck cushion with affixed counter weight (without magnet) for additional seat and lying comfort.

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as felled seams or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete indications when ordering:

- **combination**
- **covering material**
- **upholstery version**
- with leather covers **production with or without contrast stitching**
- with version with contrast stitching **colour of contrast thread**
- **leg version**; also **finish respectively stain colour**
- **frame version**; with **version with solid wooden frame** also **finish**
- **optional foot rest**, also **element and if necessary below which seat** (standing in front left or right side or both-sided)
