Edition 29.01.2019

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

## DESIGN

### CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, metal base frame

Seat upholstery structure: zig-zag springs, Dacron, polystyrene foam VW 35, Diolen

Seat upholstery structure with daybeds and stools: rubber straps, polystyrene foam VW 35, Diolen

Back upholstery structure: polystyrene foam, Diolen

### UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not wavelless. The ridge of the covers on the seat, back and the armrests as well as sitzmarks due to model and design are typical.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no grounds for complaint.

### BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

## LEGS

Sword runner optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated structural black mat

from the left to the right:

## COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

## FLOOR CUSHION

The floor cushion Y offers an additional seat possibility on the plateau.

## FUNCTIONS

### I HEAD PIECE ADJUSTMENT

The head piece can be infinitely moved up to 14 cm.

In addition the head piece can be adjusted forward from each position by a bearing and by light counter pressure backwards.

### II BACK ADJUSTMENT

The back is adjustable independently of the head piece by a ratchet mechanism that allows different positions.

### III SEAT ADJUSTMENT

The seats can be moved to the left as well as to the right.

In addition a turning function (360°) is integrated in each seat.

### Exceptions:

The single daybeds **P7**, **P5** and **P3** are only turnable. Not movable!

The stools **HB** and **HX** have no function.

### Turn stopper

A turn stopper can be optionally fitted to the seat.

It will be charged per article against extra charge (see price sheet). With 2-seats turning elements with both seats.

Please note: With the add-on corners IL/RX and OL/RX respectively only one seat is turnable.

By actuation of the sidewise fitted button the rotation of the seat is stopped and is locked in the desired position.

Even with locked seats the elements can be moved.

**Please note:** Due to the turn stopper the seat height is enlarged up to approx. 1 cm.

## SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

Please also note our general details and sales information

Edition 29.01.2019

Errors and amendments excepted. Our General Terms and Conditions are effective.

## CONTRAST STITCHING

The seam construction diagram and the thread size are defined due to the model. With leather covers the production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour. Therefore in such cases the finish must be chosen.

By processing with contrast stitching **the best matching colour of the contrast stitching** was chosen for each leather colour. It will be worked automatically while a certain colour of contrast stitching is not explicitly indicated on the order. More for it in the general sales information.

The below displayed combinations of seam colour and leather colour are recommended, exemplary assignments of the 6 available colours of contrast stitching.

LIGHT GREY 0321

BEIGE 1222

NOUGAT 0281

GREY 0415

DARK BROWN 1002

BLACK 4000

Unfortunately with fabric- and microfiber covers contrast stitching is not possible.

### Exception fabric 13-BISON:

With this fabric it can be chosen between a production with contrast stitching or with a thread matching the fabric in terms of

## INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in

Already in the standard version dimensional differences with the height between add-on element and daybed up to approx. 1 cm can arise according to the construction.

The difference in dimension is in the tolerance range of the DGM rules.

## PLATEAU

It can be chosen between a covered plateau and a wooden plateau.

The covered plateau will be delivered on the lines of the chosen covering material.

The wooden plateau is optionally available in:

- wild oak natural veneered (UV laminated with oil effect)
- wild walnut veneered (UV laminated with oil effect)
- cement optics (lacquered, spread by hand scraper)

from the left to the right:

### Please note:

The stool HB and HX are supplied as standard without plateaus with sword runner!

## LOAD CAPACITY

**Please note:** Each seat can be weighted with maximum 130 kg body weight. Therefore only one person should sit on a seat.

The daybeds **P7, P5, P3, P8/9X, P1/2X, PL/RX, P7L/RX, P5L/RX and P3L/RX** can be weighted with maximum 160 kg.

The weight carrying capacity of functional parts is limited and not designed for load with the body weight (max. 30 kg). The adjustable functional back must not be used as seat.

## ORDER CHECK LIST

Please pay attention to the following issues respectively to complete indications when ordering:

- **combination**
- **covering material**
- with leather covers production **with or without contrast stitching**
- **plateau version**, with wooden plateau also **finish**
- **finish of sword runner**
- **optional turn stopper**
