DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/3

Fully upholstered bench, metal base frame, form foam

Seat upholstery structure: zig-zag springs, form foam, Diolen

Back upholstery structure: form foam, Diolen

UPHOLSTERY CASUAL / LOOSE

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not waveless. The ridge of the covers on the seat, back and armrests as well as sitzmarks due to the model and design are typical.

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

FUNCTIONS

The seats can be independently of each other moved to the left as well as to the right as well as turned up to 360°.

Please note: The seats have an automatic back adjustment. Here the seat turns back to the basic position self-acting while standing up.

In addition a seat draw forward is fitted in all seats. Hereby it's possible to move the seat also forward.

LEGS

Flat steel runner optionally available in:

- nickel satined (stainless steel optics)
- metal powder-coated structural black mat

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

WOODEN PLATEAU

Wooden plateau with under-cut edge optionally available in:

- **wild oak natural solid**
(UV laminated with oil effect)

- **wild oak bianco solid**
(UV laminated with oil effect)

Visual characteristics of wild oak are increased arising branches, small cracks, whirls or face sides. The agility of the wood is also formed by the natural play of colours.

- **wild walnut solid**
(UV laminated with oil effect)

against extra charge see price sheet

With wild walnut the wide colour spectrum is varying from grey-brown to red-brown painting to the point of nearly black inlets. Also a share of light sap wood is possible. Limb and growth marks as well as different intense wood structures are characterizing the nativeness of the walnut.

- **laminated wood panel with cement surface**
against extra charge see price sheet

CHAIR

With this model we recommend the suitable chair 1220.

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric-leather-combinations a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible.

Exception fabrics 13-BISON, 13-CHASE and 13-TORRERO:

These fabrics can be produced with contrast stitching. A contrast thread colour must be explicitly chosen.

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

With bicoloured covers and with fabric-leather-combinations the matching thread will be automatically worked on the front and on

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

At the back the model is worked with selvedge seam.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

Alternative covers of the wide upholstery covering material collection (**exception N-NATURO**) are possible as custom-made product. Therefore an extra charge of all in 20% is valid for fabric and leather.

COMBINATION OF COVERING MATERIALS

If desired with this model two different covers can be combined.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

With combination of fabric and leather the leather price will be invoiced as standard.

Fabric- and leather requirement of each cover part on request.

 cover part 1: seat, back and armrest

 cover part 2: seat-, back- and armrest tensioning section

TRANSPORT

The included technology and/or the dimensions of the elements have an important influence on the total weight of the elements but also the respective chosen covering material and the factory-provided transport packing.

Being able to consider the specific features during transport of elements with heavy total weight sufficiently all elements with which the weight of at least one package - relating to averaged heavy covering and packing material - is approximately 80 kg or more are marked with an accordant pictogram in the right upper corner.

ORDER CHECK LIST

Please pay attention to the following issues respectively to complete specifications when ordering:

- **article / combination**
- **covering material**, with combination of covering materials **covering material per cover part** (in general N-NATURO is not possible)
- with leather covers and fabric-leather-combinations **production with or without contrast stitching**
- with version with contrast stitching **colour of contrast thread**
- **finish of flat steel runner**
