MOBILFRESNO

Worldwide design. Handmade in Spain

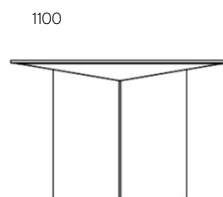

The **PRISMA** dining table designed by Gabriel Teixidó has a uniquely shaped thin top and angled legs on a metal trimmed base. The **KÓNICA** dining table also designed by Gabriel Teixidó features a 2 cone shape pedestal on a thin metal plate. The collection also offers the **AREA** sideboard and media cabinet which are available in several wood and lacquer finishes in different sizes. The design characteristic are the finely designed handles for the otherwise clean contemporary design, The **AREA** cabinets are also available with marble tops. These cabinets can be combined with the **PRISMA** wall mounted shelves which can be equipped with LED light. The **PEBBLE** collections of occasional tables designed by Wow Architects consists of three occasional coffee tables which can be combined into sets or used individually. They are available in a choice of wood finishes with 3 different marble and metal options. The **MANTA** collection designed by Wow Architects features the modified sideboard with sculptured door handles and a home office desk inspired by their natural architectural signature. **SHARON** ellipse, curves and lines intermingle to create the sculpture of a simple and beautiful chair, this is the argument that Paco Camus uses for Sharon's design. **These are our New 2021.**
