UPHOLSTERY VERY CASUAL

With casual upholsteries you are rather sitting „in the sofa“ than on it, the upholstery snuggles. A very casual upholstery is characterized by a smooth, soft surface. The covers are intended showing a distinctive curly image and an extended wrinkling on seat, back and armrests already in new condition. With this high quality upholsteries with bay quilting as applied a flexible mixture out of loose filling material as foam sticks and/or plumes enables a point adaptation to the body. For this the fillings are worked in bays which come more or less apparent depending on the cover. Sitzmarks are due to model and design typical.

All back tensioning sections are supplied as standard with the original cover.

WOODEN PLATEAU

Wooden plateau with dull edge (UV laminated with oil effect) optionally available in:

- **wild oak bianco solid**

Visual characteristics of wild oak are increased arising branches, small cracks, whirls or face sides. The agility of the wood is also formed by the natural play of colours.

against extra charge see price sheet

With wild walnut the wide colour spectrum is varying from grey-brown to red-brown painting to the point of nearly black inlets. Also a share of light sap wood is possible. Limb and growth marks as well as different intense wood structures are characterizing the nativeness of the walnut.

Wooden plateau with under-cut edge available in:

- **cement optics**
(lacquered, spread by hand scraper)

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric-leather-combinations a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible.
