Errors and amendments excepted. Our General Terms and Conditions are effective.

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/4.

Fully upholstered suite, wooden base frame

Seat upholstery structure: zig-zag spring, Dacron

Seat cushion upholstery structure:

Casual / barrel spring: Bonell barrel spring, polystyrene foam VW 40, Diolen

Very casual / faom: polyform foam VW 40, Diolen

Back cushion (fixed) upholstery structure: polyform foam, Diolen

UPHOLSTERY

With casual upholsteries you rather sit „in the sofa“ than on it, the upholstery snuggles. Two upholstery versions are available:

Casual / barrel spring: A casual/loose upholstery is characterized by a smooth upholstery structure. The cover is not waveless. The intended ridge of the covers on seat, back and armrests as well as sitzmarks due to model and design are typical.

Very casual / foam: A particularly casual upholstery is characterized by a very comfortable and soft surface. Even when new or after initial use, the covers can show a clearly visible wave pattern on the seat, back and armrests, which is unavoidable due to the design, construction and material and will increase with use. The size of the sewn covers also has a similar influence on sinking and cover stretching. The softer the upholstery and the larger the seat surface, the greater the sinking in and ultimately the cover stretching.

Slight differences in seat firmness with add-on groups are according to construction and therefore constitute no reason for complaint.

Upholstery with functional elements:

Please note that with the following elements **the upholstery can't be chosen:**

- **NXL/R**
- **I1L/R**
- **N1L/R**

Due to the technical and constructive requirements the seat seems „noticeable firmer“ with these functional elements, similar to the quality „casual / barrel spring“.

Upholstery with functional armchairs V and VTX:

The single armchairs are equipped as **standard** with the **upholstery „casual / barrel spring“** (not arbitrary).

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

SEAT DEPTH

Seat depth optional:

- 54 cm (with daybeds 127 cm)
- 57 cm (with daybeds 130 cm)

The seat depths will be adjusted via the position of the back cushions. With a seat depth of 54 cm an additional foam is fixed to the corpus and thereby the cushion is brought forward.

Within an add-on group the seat depth can't be varied.

Seat depth with functional armchairs:

Please note that the single armchairs V and VTX have a defined seat depth and can't be chosen.

Seat depth with corner- and ending elements:

With the following corner- and ending elements the indicated seat depth 54 cm respectively 57 cm is only for the respective add-on side:

GG, GGY, GT, GTY, RL/R, RYL/R, GGL/R and GGYL/R

The seat depth is modified accordingly.

Unfortunately with these asymmetric elements a precise indication for the respective seat depth can't be made.

On inquiry you will receive more detailed information!

SEAT HEIGHT

Seat height optional:

- 43 cm
- 46 cm

Within an add-on suite the seat height can't be varied.

Seat height functional armchair:

Please note that the single armchairs V and VTX have a defined seat height of 47 cm.

Please also note our general details and sales information

Edition 29.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

ARMREST VERSIONS

The height of the armrest is indicated for seat height 43 cm. With armrests clear of ground adjustment of seat height 46 via the height of the leg and with armrests near ground (no. 5 and 9) via the height of the armrests (each plus 3 cm). With armrest no. 4 the wooden frame will be adapted for seat height 46 cm accordingly.

Please note: With functional elements as well as with functional armchairs V and VTX the armrest can't be chosen. Here the width of the armrest is defined.

ARMREST 1

W 15 cm
H 56 cm

ARMREST 6

W 25 cm
H 56 cm

ARMREST 2

W 15 cm
H 58 cm

ARMREST 7 (against extra charge)
Armrest cushion with ratchet mechanism

W 25 cm / AR-cushion 29 cm
H 52 cm

The fitted armrest cushion is adjustable by a ratchet mechanism that allows different positions.

ARMREST 3 (against extra charge) with bearing

W min. 15 cm / W max. 30 cm
H min. 58 cm / H max. 63 cm

The armrest is adjustable by a bearing that infinitely allows different positions. The width is enlarged up to 15 cm.

ARMREST 8 (against extra charge)

W 25 cm (incl. fitted cushion)
H 57

ARMREST 4 (against extra charge)

W 15 cm
H 61 cm

Solid wooden frame optionally available in:

- wild oak
- wild walnut

ARMREST 9 near ground (plastic glider as standard)

W 25 cm
H 56 cm

ARMREST 10 (against extra charge) wooden armrest

W 25 cm
H 49 cm
D 87 cm

Wooden veneered armrest optionally available in:

- wild oak
- wild walnut

ARMREST 5 near ground (plastic glider as standard)

W 15 cm
H 56 cm

With armrest 3 and 7 please note: Armrests with integrated fittings must not be used as seat neither in the raised nor in the folded position (armrest 3). The joints are not designed for use with the entire weight of the body.

LEGS

The legs can be chosen suitable for the armrest.

Please note with armrest version 4, 5 and 9 the legs can't be chosen:

armrest no. 4: The solid wooden frame acts as leg.

armrest no. 5 and 9: With the armrests near ground plastic gliders are equipped as standard.

LEG 1

Aluminium casting sword runner in 3 finishes:

- polished
- bronzed
- black mat

LEG 6

Angle leg in 4 finishes:

- aluminium shiny (polished)
- aluminium mat (satined)
- metal bronze lacquered
- metal powder-coated high gloss black

LEG 2

Sword runner in 2 finishes:

- nickel satined (stainless steel optics)
- metal powder-coated structural black mat

LEG 7

Angle leg in 2 finishes:

- aluminium brushed
- metal black mat

LEG 3

Ellipse runner in 3 finishes:

- shiny chrome
- nickel satined (stainless steel optics)
- metal powder-coated high gloss black

LEG 8

Metal leg rectangular in 2 finishes:

- nickel satined (stainless steel optics)
- metal powder-coated structural black mat

LEG 4

Flat steel runner in 2 finishes:

- nickel satined (stainless steel optics)
- metal powder-coated black mat

LEG 9

Wooden leg rectangular in 4 finishes:

- oak (oiled)
- beech (oiled)
- walnut (oiled)
- beech P11 (lacquered)

LEG 5

Round pipe leg in 4 finishes:

- aluminium shiny (polished)
- aluminium mat (satined)
- metal bronze lacquered
- metal black mat lacquered

LEG 10

Wooden leg slanted in 3 finishes:

- oak (oiled)
- beech (oiled)
- walnut (oiled)

Please also note our general details and sales information

Edition 29.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

FUNCTIONAL ELEMENTS

The functional elements have a defined armrest width of approx. 50 cm (can't be chosen).

The armrests are adjustable by a ratchet mechanism that allows different positions. By pulling beyond the highest position the armrest can be returned to the basic position (armrest lies on the the corpus again).

Please note: Armrests in raised state must not be used as seat. The joints are not designed for use with the entire weight of the body.

Turn- and move function with elements with code X

Element NXL/R

The seat can be moved to the left as well as to the right. In addition a turning function is integrated.

Please note:

With elements with integrated turn- and move function the single seats have play according to the construction. By actuation of the functions a certain noise can arise. This characteristic constitutes no grounds for complaint.

Turn stopper with NXL/R

A turn stopper can optionally be fitted into the turnable seat. It will be charged against extra charge(see price sheet).

By actuation of the sidewise fixed buttons the rotation of the seat can be stopped and locked in the desired position.

The element can be moved furthermore also with fixed seat.

Swiveling seat incl. armrst with elements with code 1

Element I1L/R and N1L/R

The complete seat incl. the armrest can be converted into a lying area via manual turning up to 90° forward. Thereby the seat as well as the total depth is enlarged.

FUNCTIONAL ARMCHAIR

The functional armchairs V and VTX have a fixed armrest width of approx. 10 cm.

Functional armchair V on rotary leg

The head piece can be manually adjusted forward respectively backward by a ratchet mechanism that allows different positions. In addition the head piece can be infinitely raised up to 10 cm.

Functional armchair VTX on rotary leg

The head piece can be manually adjusted forward respectively backward by a ratchet mechanism that allows different positions. In addition the head piece can be infinitely raised up to 10 cm.

By displacement of the body weight backwards the leg part can be brought forward and the seat is lightly lowered backwards. By further displacement of the body weight backwards the back is lowered to a daybed position.

Leg version with armchair V and VTX:

Metal rotary spray optionally available in:

- nickel satined (stainless steel optics)
- structural black mat

Metal rotary plate optionally available in:

- nickel satined (stainless steel optics)
- structural black mat

Please also note our general details and sales information

Errors and amendments excepted. Our General Terms and Conditions are effective.

Edition 29.08.2024

DAYBEDS

With the add-on daybeds please note:

All selectable armrests (small and wide) are always flushing with the seat on the right respectively left.

For **small armrests (1-5)** the **daybeds with code „S“** are scheduled.

With the **daybeds without code „S“** the **wide armrests (6-10)** can be added.

INTERMEDIATE TABLE

The **intermediate metal table with wooden sliding plate K** is optionally available in:

- wild oak natural solid with metal structural black mat
- wild walnut solid with metal structural black mat

The intermediate metal table has an upholstered socle.

The **intermediate table rectangular, hinged KA2** will be delivered in the following finish:

wild oak solid rough / colour smoked

HEADREST

The headrests **YN1X 68 x 68 cm** and **YNX 53 x 68 cm** can be positioned arbitrary via metal holder and adjusted by a ratchet mechanism that allows different positions.

The holder is optionally available in:

- nickel satined (stainless steel optics)
- metal structural black mat

Please note: With the functional armchairs V and VTX the headrests can't be fitted.

COMBINATION OF COVERING MATERIALS

With this model two different covering materials can be combined if desired.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

By combining two covering materials different in prices the higher price category will invoiced as standard.

Fabric- and leather requirement of each cover part on request.

Armrest version 1, 2, 3, 4, 5, 6 and 9

 covering part 1: seat and back

 covering part 2: corpus and armrest

The picture shows the following combination:

Armrest 6

P3 - daybed large AR wide left / **CR** - sofa 2 large AR right

Armrest version 7 and 8

 covering part 1: seat, back and armrest cushion

 covering part 2: corpus and armrest

The picture shows the following combination:

Armrest 7 with element FR

RYL - element round left for loose cushions / **KA2** - intermediate table / **FR** - element maxi AR right

Please also note our general details and sales information

Edition 29.08.2024

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

CUSHION RECOMMENDATION

With some elements we recommend the use of additional back cushions respectively back cushion sets for an optimal and improved seat comfort.

Corner large GGY
Ending element large GGYL/R
Ending element round RYL/R

for these elements we recommend the following back cushions:

- back cushion large YG: 84 x 49 cm
- back cushion set large YGS: 3 cushions each 84 x 49 cm

Trapeze corner medium GTY

for this element we recommend the following back cushions:

- back cushion small YK: 49 x 49 cm
- back cushion set small YKS: 3 cushions each 49 x 49 cm

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric-leather-combinations a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible (**Exception 13-BISON**).

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

With bicoloured covers and with fabric-leather-combinations the matching thread will be automatically worked on the front and on the rear side.

LIGHT GREY 0321

BEIGE 1222

NOUGAT 0281

GREY 0415

DARK BROWN 1002

BLACK 4000

RED 0504

DARK BLUE 0827

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as felled seams or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

ORDER CHECK LIST

Please pay attention to the following issues respectively complete specifications when ordering:

- **Combination**, with each element the desired **armrest** in addition, with armrest 4 and 10 **wooden finish**
- **with daybeds: Choose articles according to width of armrest**
- upholstery **casual/barrel spring** or **very casual/foam** (Pay attention to the exceptions)
- **seat depth 54 cm or 57 cm** (with daybeds 127 cm or 130 cm)
- **seat height 43 cm or 46 cm**
- **covering material**, with combination of covering materials **covering material per cover part**
- with leather covers and fabric-leather-combination **production with or without contrast stitching**
- with version with contrast stitching **colour of contrast thread**
- **leg version**, in addition **finish**
- with armchair V and VTX: **version of rotary leg, also finish**
- with element NXL/R: **optional turn stopper**
- **finish of metal intermediate table**, if desired
- **finish of headrest**, if desired

The armrests in the pictured pictograms are exemplarily illustrated with a width of 15 cm. The single armchairs V and VTX have an armrest width of 10 cm as standard. At all times the maximum fabric- respectively leather requirement is stated.
